Section 3.51 Rural Residential 1 (RR1):

The RR1 zone is established to protect stable neighborhoods of detached family dwellings on lots of one acre or more up to five (5) acres. The minimum lot width shall be 150 feet; the minimum front yard shall be 60 feet from the property line or 90 feet from the center line of the road, whichever is greater; the minimum rear yard shall be 30 feet from the property line; and the minimum side yard shall be six inches for every foot of building height with a 10 foot minimum. No structure shall be erected to a height greater than 30 feet to eave height, measured from natural grade at the building site. There can be only one single family dwelling per lot. Household pets are allowed, no more than two domestic livestock for each acre shall be allowed. Installation of curb and gutter or a drainage facility approved in advance by the Planning and Zoning Commission shall be required; however, no sidewalk will be required. The maximum lot coverage by buildings, including the dwelling, shall be 50 per cent.

Section 3.52 Rural Residential 2 (RR2):

The Rural Residential 2 Zone is established to provide rural residential zoning for the development and protection of country neighborhoods. The minimum development size for RR2 Zoning is two acres. This zoning may be applied in areas where traffic flow is limited primarily to local area residents and where the expansion of transportation to areas adjacent to the zone is not anticipated. The zone shall be characterized by single family dwellings on lots of a minimum of 2 acre, ample off-street parking and reflecting a rural isolated atmosphere. An accessory apartment is allowed with a Conditional Use Permit. Neighborhoods with RR2 zoning conform to the city typical road section for RR2 neighborhoods. Application of RR2 Zoning must be consistent with topography where storm water run off and erosion are not a problem. The City of Rexburg right of way width is a minimum of 68 feet. Two (2) dwelling units per net acre is the maximum density permitted in RR2.

Section 3.61 Medium Density Residential 2 (MDR2):

The Medium Density Residential 2 is established to protect stable neighborhoods of detached single family dwellings on smaller lots and multi-family housing not to exceed 22 units per acre as an allowed use by right. Restoration or rehabilitation of older homes in this district shall be encouraged. Conditional uses of up to 24 units per acre shall be compatible with an atmosphere of low building heights, low traffic volumes, ample off-street parking, and low nuisance potentials at a higher density than MDR zones. The maximum density permitted in this district is twenty-four (24) dwelling units per net acre. Setback and minimum lot size requirements in MDR2 are the same as in MDR1. Maximum Lot Coverage is 80%.
