RESOLUTION 96.6

Whereas, the Governor of the State of Idaho, the US Department of the Navy, and the US Department of Energy have entered into a Settlement Agreement which has been issued as a Federal Court Order, and

Whereas, the Agreement limits the types and amounts of spent nuclear fuel that can be shipped into the state, prohibits the shipment of commercial spent nuclear fuel, and provides a timetable for shipments out of Idaho, and

Whereas, the Agreement provides an accelerated timetable for the treatment and removal of transuranic wastes from the State of Idaho, and

Whereas, the Agreement is enforceable and specifies penalties, including fines and cessation of further shipments, should provisions of the Agreement not be met, and

Whereas, the Agreement recognizes that steady progress on the cleanup mission will effect employment levels at the Idaho National Engineering Laboratory, and thus the economic base of the State of Idaho, and provides funds for economic transition away from dependence on the INEL, and

Whereas, we recognize the budgetary pressures on the Federal Government and the relative low risks at the Idaho National Engineering Laboratory when compared to other Department of Energy facilities in the United States,

Therefore, be it resolved that the Mayor and City council of the City of Rexburg, Idaho, express their support for the Settlement Agreement between the Governor of the State of Idaho, the Department of the Navy, and the Department of Energy. Further, be it resolved that the mayor and City council of the City of Rexburg, Idaho, express their opposition to Initiative #3.

Dear Mayor Boyle,

Recently, the City Council of the City of Idaho Falls voted approval of a resolution supporting the Settlement Agreement and opposing Initiative 3. The City Councilmembers agreed that the Agreement is in the best interest of eastern Idaho and the State of Idaho. The resolution has also been approved by the Bonneville County Commissioners. Copies of the resolutions are attached.

I would appreciate your City Council supporting this resolution as well. I will share the names of communities who support the resolution with Governor Batt, and with representatives of the US Navy and US Department of Energy. If you have questions, I would be happy to arrange for a knowledgeable person to meet with your Council. Please contact me with your decision and send a copy of your resolution, should you chose to adopt it.

Sincerely,

Linda Milam
