- Digital Plans (PDF Format – can be submitted by USB, CD, or Dropbox)
- **Copies of any Contractors' State License if not on file already.

Seismic Design Category – D Ground Snow – 50 lbs. per sq. ft. Roof Snow Load – 35 lbs. per sq. ft. Wind Load – 90 MPH Frost Depth – 36"

Complete the Following Forms:

- Permit Policies Acknowledgment signed.
- Property Line form signed by builder.
- Building Permit Application signed by a registered General Contractor.
- Mechanical Permit Application signed by a registered Mechanical Contractor.
- Electrical Permit Application signed by a registered Electrical Contractor.
- Plumbing Permit Application signed by a registered Plumbing Contractor.
- Subcontractor list completed.
- Homeowner's Exemption signed, if Homeowner is doing work on their own home.
- Affidavit of Legal Interest signed by owner, if applicant is not working directly with owner.
- Notifications Distribution List.

Subdivisions: If you plan to build in a subdivision please check the Rexburg Development Code for any requirements such as property setbacks, architecture board approval, etc.

This information is available at <http://rexburg.org/pages/development-code>.

SITE PLAN CHECKLIST

- 1 Site plan must be drawn to scale, be legible and also be submitted electronically if possible.
- 2. Adjoining streets labeled.
- 3. Right-of-way location and width, curb to curb widths and sidewalk location.
- 4. Building location, sq footage and dimensions, with distance to property lines and distances between buildings.
- 5. Show existing and proposed easements.
- 6. Existing utilities (waterlines, sanitary sewer lines, manholes, storm drains).
- 7. Proposed utilities including tie in location to existing services and new easements.
- 8. Proposed storm drain and sanitary sewer elevations (for pipe inverts at manholes and catch basins).
- 9. Storm drainage plan for parking lot and roof areas, with calculations.
- 10. Fire hydrants and fire suppression lines (including tie to City lines).
 - Sprinkled
 - Not Sprinkled
- 11. Indicate Fire apparatus access.
- 12. Parking (including parking lot, drainage arrows, dimension of lot, distance between rows, and total numbers).
- 13. Landscaping (type and total area, including dimensions).
- 14. Trash facilities.
- 15. North Arrow Included
- 16. Proposed street improvements (curb, gutter, sidewalk, pavement, etc.)
- 17. Legal description of proposed building site included.
- 18. Percent of lot covered by building or paving calculated.
- 19. Show 10% snow storage area.
- 20. Distance of entrances from street corner indicated.
- 21. Current Vicinity Map. (8 ½ x 11") at 1" = 300' scale, showing location of the property.
- 22. Lighting Plan

SITE PLANS MUST BE COMPLETE AND SUBMITTED FOR REVIEW **BEFORE** THE PROJECT WILL BE PLACED ON THE PLANNING & ZONING AGENDA.

PERMIT POLICIES ACKNOWLEDGMENT

The City of Rexburg Building Safety Department is determined to provide excellent customer service. In an effort to help you understand the City of Rexburg Permit Policies, listed below are several policies which you are required to know prior to proceeding with your project.

Any construction within the City of Rexburg which requires a permit shall not begin until an approved permit is obtained. If you do not have a Pink Building Permit signed by the Building Inspector, then you do not have an approved permit.

Initials

- Building without the pink building permit signed by the Building Inspector will result in double fees to be assessed and the project to be red tagged. If your project is red tagged, halting all construction, only a City Official may remove the red tag. If the red tag is removed by anyone but a City Official, citations may be issued.

No building may be occupied without receiving a signed Certificate of Occupancy.

Initials

- If a building is occupied without receiving a signed Certificate of Occupancy, citations may be issued and the occupants may be evicted.

Scheduling inspections is the responsibility of the applicant and their contractor. Inspections need to be called into the hotline and not to the inspector. Inspections called in later than 8 AM will be scheduled for the following business day.

Initials

- If an inspection is not done, the inspector may require any measures to be taken to allow him to correctly perform the inspection. (Example: If the electrical rough in inspection is not done and the sheetrock has been put up, the inspector may require the sheetrock to be removed in order to perform the electrical rough in inspection.)

Construction on any project can begin ONLY when you have received a Pink Building Permit from the Building Department. Occupancy of any structure can begin ONLY when you have received an official Certificate of Occupancy from the Building Department. These documents must be signed by the appropriate authorities from the City of Rexburg. Any approvals can be verified by calling (208) 372-2341.

Initials

- Even if you hear from an inspector that 'you're good to go', ultimately if you do not have a Building Permit or Certificate of Occupancy, the above policies will be enforced.

It is your responsibility to inform anyone on your project of the above policies. All sub-contractors will be held to this standard with no exceptions.

Initials

- The above policies will be enforced to all, regardless if this information is passed on to them or not.

Applicant's Name (print): _____ Signature: _____ Date: _____

PROPERTY LINES

Each site plan that is submitted to the City of Rexburg for the Building Permit process requires that property lines are shown accurately. It is the Developer's responsibility to correctly identify on the site plan the location of these lines in reference to the public right-of-way, other adjoining property lines, the street, other structures and all utility lines. The Developer should find property pins that are still available at the lot in question. If these pins do not exist or have become unrecognizable then a new survey should be performed.

Accurate property line information is a must for a timely review. In addition to finding existing property pins, legal descriptions should be checked. The best way to identify property line location is with a land survey. The City of Rexburg has aerial photos and a parcel line layer that can be checked, but they are only a tool and are not guaranteed for accuracy. If you want to request a copy of your lot, see the front counter at the Community Development Department.

I have read and understand the above requirements.

HOMEOWNER'S EXEMPTION

As of January 1, 2006, the City of Rexburg can no longer sell permits without having a copy of your State registration number or your exemption from the State registration. Please fill out this form showing your exemption and send it with your permit application.

Idaho State Statute allows a homeowner to do work on their own residence:

An owner performing construction on the owner's personal residential real property, whether or not occupied by the owner, provided however, this exemption shall not apply to an owner who is otherwise regulated by this chapter who constructs a building, residence or other improvement on the owner's property with the intention and for the purpose of promptly selling the improved property, unless the owner has continuously occupied the property as the owner's primary residence for not less than twelve (12) months prior to the sale of such property;
Title 54, Chapter 52, Subsection (2)

I hereby certify that the above information is true and correct to the best of my knowledge.
