- A. **7:20 P.M. Vacate certain City Right-of-Way** adjacent to 210 West 4th South (Christensen Auto body) – Staff

Mayor Woodland reviewed the parcel and the reason the city needs to vacate the property. The state owned the land, as it was part of Highway 33. The highway was redesigned and the extra property came into the hands of the city. It is not big enough to do anything with.

Council Member Sutherland said the city cannot sell the land because it was owned by the state originally. The best thing is to do is vacate the property. Christensen Auto Body will take care of the land and add landscaping.

B. Resolution 2010 – 14 Authorizing and providing for the issuance and delivery of a promissory note to the State of Idaho Bond Bank Authority in a principal amount not to exceed \$10,000,000 – Richard Horner

Richard Horner reviewed Resolution 2010 – 14 Authorizing and providing for the issuance and delivery of a promissory note to the State of Idaho Bond Bank Authority. The City Council approved the bonding process a few months ago. Council Member Benfield asked for a summary.

The expected open bid rate is expected to be between 3.5% and 4.0%. The money will come from the state bond bank. The net revenues from the sewer system will make the bond payments. There is 130% available to make the bond payment with 2010 sewer revenues. If additional debt was issued, it would be subordinate to this debt. The notes are tax free bonds to the owners. Exhibit “A” is the note the Mayor and City Clerk will sign.

Staff Reports:

A. **Public Works:** – John Millar

1. City Council approved a contract with The Development Group for an application for a CDBG Grant for the sewer main line project. Rick Miller is working on the grant application and it should be submitted well before the deadline. The sewer project bid is for a new pressure line from the south end of town directly to the sewer plant. It is a good route down US 20; city streets will not have to be torn up for installation. The line needs to be in and going for 1500 new residents on 7th South.
2. The Aquatic Center is moving along at an accelerated rate. They have started on the pool foundation and footings. The weather has allowed good progress.
3. In the park area, the sprinkling systems are installed. They will allow the lines to settle through the winter and the entire park area will be ready to hydro seed in the spring.
4. The Wastewater Treatment Plant is about 95% complete. The bio-tower is near completion. The concrete work is done. The piping is being insulated. They have extra media and are trying to sell it back to the company. The main distributor for the bio-tower will arrive on the 15th of November and it will take 2 days to install it. The project completion date was pushed back two weeks, but the plant should be operational by the end of November.
5. Fall Cleanup will need to be extended to get the tree leaves.
6. 6th South will be paved tomorrow.
7. Cableone will clean up the wire way in the alleys. They will need to bury some lines in the Cresthaven Subdivision.
8. Fence at golf course is completed.
9. A local contractor was given a window from the Tabernacle in order to reverse engineer it and come up with an estimated cost for reconstructing all the windows. The project should be well under budget. The city will take bids and have the windows built during the winter and prepared for installation in the spring.

Council Member Mann asked about next year's street projects. The estimates are available.

Council Member Stout asked about a new snowplow for the airport. They need help with the bidding process. The commercial flights need to have a clear runway by 8:00 A.M.
