The RBD zone is established to provide for the use of single family residential homes for commercial and service uses. The zone is intended to protect the residential nature of the streetscape and provide strict regulation of types and hours of conduct of commercial uses. Commercial uses are limited to non intrusive low-demand business that can peacefully co-exist with a surrounding neighborhood.

It is intended that the RBD zone shall be characterized by a single structure that will function as a part of the greater neighborhood. Hours of operation should be regulated to provide compatibility with surrounding residential uses. All parking lots shall be clean, buffered and located out of the front and side yard setbacks. Attractive and well-maintained landscaping will also be characteristic of this zone.

Lighting will be of a relatively low intensity and low profile with adequate shielding to protect the surrounding residential areas. The architectural design and character will be compatible with that of the surrounding residential environment. Uses permitted in the RBD zone will be those which will create minimal or no detriment to the surrounding residential areas.

Multiple family dwellings, industries, recreational uses, or other heavy commercial uses which tend to be inconsistent with the use of the land within this zone for its primary purpose have been excluded. Typical uses allowed by right in this zone are miscellaneous specialty retail such as collectible stores, professional service offices, garment alterations/repairs, or as may otherwise be established by a more specific list included within this chapter. A broader range of uses may be permitted pursuant to the issuance of a conditional use permit.

RBD zones shall be located generally in conformance with the provisions of the Rexburg City Comprehensive Plan. The RBD zones shall only be allowed if the area requested for designation as such is contiguous to either a commercial zone other than RBD, industrial zone, or a medium or high density zone.
