RE: Post Ordinance Taxing Entity Letters

Dear Mr. Kay:

I enclose draft forms for the required letters to the taxing entities, the State Tax Commission, the Madison County Auditor, the Madison County Recorder and the Madison County Assessor. These letters indicate that there were no substantive changes since the Plan was transmitted to them in November, 2005. **It is important that the legal description and the map are formally recorded with the County Recorder.** You will probably have to have someone personally take those documents to the Recorder for recording. If the City's common practice is to record the entire Ordinance and its attachments, then the common practice should be followed, as long as the map and the legal description are recorded as well.

Very truly yours,
