

RESOLUTION #91.1
A RESOLUTION FOR LOCAL ADMINISTRATION OF THE
IDAHO RESIDENTIAL ENERGY STANDARDS

WHEREAS, the legislature of the State of Idaho finds that conservation measures associated with the construction of residential buildings are among the most efficient methods of providing for the future energy needs of Idaho; that the construction of residential buildings to certain standards of energy efficiency provides the least costly investment for residential building occupants and owners and represents one of the most economical methods of achieving long-term energy conservation savings.

WHEREAS, the legislature of the State of Idaho established construction standards for energy conservation by enacting Chapter 23, Title 44, Idaho Code; and

WHEREAS, Chapter 23, Title 44, Idaho Code authorizes Idaho local governments to administer the new residential energy standards and to accept residential building certifications from builders.

NOW, THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF REXBURG THAT:

SECTION 1: The City of Rexburg adopts the statewide construction standards for energy conservation established in Chapter 23, Title 44, Idaho Code.

SECTION 2: The City of Rexburg will accept residential building certifications from builders and issue authorizations to electrify according to procedures described in the rules and regulations known as the Idaho Residential Energy Standards promulgated by the Director of the Idaho Department of Labor and Industrial Services.

SECTION 3: This resolution shall be in full force and effect upon its passage and approval.

A motion was made by Nyle Fullmer and seconded by Brad Liljenquist to pass the Idaho Residential Energy Standards Resolution.
