

Resolution 2004-05

**Idaho Community Development Block Grant (ICDBG)
Citizen Participation Plan**

City of Rexburg

Pursuant to citizen participation requirements for ICDBG participants, the City of Rexburg hereby certifies the following activities will be completed:

Provide for and encourage citizen participation, particularly for low and moderate income persons who reside in slum or blighted areas and areas in which ICDBG funds are proposed to be used. Provide technical assistance to group's representative of low and moderate income persons that request assistance in developing proposals in accordance with procedures developed by the department. Such assistance need not include providing funds to such groups.

Hold a minimum of two public hearings, each at a different stage of the program, for the purpose of obtaining citizens' views. The first public hearing shall include a description of the proposed project, scope of work, budget, schedule, location and beneficiaries. Any earned program income must also be noted. The application, related documents and Application Handbook shall be available for citizens to review.

The second public hearing on the status of funded activities shall, at a minimum, include a review of project activities and accomplishments to date; a general description of remaining work and a general description of changes made to the ICDBG project scope of work, budget, schedule, location or beneficiaries.

Public hearing procedures shall also be used in the event ICDBG projects or activities were added, deleted or substantially changed from the application. Substantially changed means changes made in terms of purpose, scope, location, or beneficiaries as defined by the ICDBG program.

Provide reasonable and timely access to local meetings, information and records pertaining to the local government's proposed and actual use of ICDBG funds. Public hearings shall be conducted at times and locations convenient to local citizens.

Public hearings shall be advertised in a local newspaper no less than seven (7) twenty-four (24) hour days prior to the hearing date. If there is no local newspaper, public notification will occur through some other method where there is wide distribution to citizens within the project area. This method must be approved by the Community Development staff.

A copy of the publication and/or affidavit if publication shall be submitted to the department. The notice should identify all of the topics to be addressed in the public hearing including the assurances that hearings shall be held in facilities that are accessible

to persons with disabilities and that alternative formats shall be available to persons with disabilities where practicable and with advance notice to the unit of local government. Citizens shall also be notified they will be given the opportunity to comment orally or in writing at a minimum of prior to and the hearing. Special accommodations shall be available for persons with disabilities who may wish to comment within this period.

Public hearings shall be conducted in a manner to meet the needs of non-English speaking residents where a significant number of non-English speaking residents can be expected to participate.

Local citizen participation records which shall be made available to the state and local citizens shall include: A copy of the public notice and /or affidavit of publication which describes proposed or actual activities, scope of work, location, budget, schedule, objectives, and beneficiaries. Notices shall also contain the accessibility clause for persons with disabilities.

Local staff shall be familiar with citizen's complaint procedures. These procedures shall provide citizens with the opportunity to protest project activities or related issues. A written complaint or grievance is formal notification of a concern, allegation or protest to a proper authority. A formal complaint will be considered filed at the time it is delivered to the appropriated authority's office. To file a complaint, citizens must provide enough information to allow an investigation. The complaint should be clear and concise and include the following information:

- A. Identification of the project, project location and program activities.
- B. Reason for the complaint (heresy and innuendo will be considered valid).
- C. Sufficient data to substantiate any claims or charges. If possible, supporting documentation should be included.
- D. If desired, citizens may propose a solution to the problem.

If the complaint is concerning local activities or project implementation, complaints and grievances shall first be filed with the appropriated elected official. IF this is the case, grantees shall be required to notify the department of the complaint. A copy of the response shall also be submitted to the department. Every attempt must be made to respond to citizens within fifteen (15) days where practicable.

If a citizen feels the response from the local jurisdiction is unsatisfactory, he or she may appeal to the department for resolution. Additional information may be requested by the department at that time. Every effort will be made by the department to provide a full response within thirty (30) days.

If valid and sufficient data has been provided to substantiate the complaint, an investigation will be conducted. The extent of an investigation depends on the scope and depth of the issues involved.

If the complaint is more appropriately directed toward ICDBG program activities, the same procedure will be followed except all communications are between the state and the complainant.

This plan shall become effective June 02, 2004.

Shawn Larsen, Mayor, City of Rexburg

Blair D. Kay, City Clerk, City of Rexburg
